Item 7.01. Regulation FD Disclosure.

On November 14, 2017, Electronics For Imaging, Inc. (the “Company”) will host a conference call to discuss its Notification of Late Filing on Form 12b-25 (the “Form 12b-25”). During the call, the Company will discuss recent developments in management’s assessment of the effectiveness of its current and historical disclosure controls and internal control over financial reporting and the continued evaluation of the accounting impact on any previously reported financial results of the write-off and reduction of the inventory expense and related settlement previously discussed in the Form 12b-25.

The Company’s preliminary earnings announcement for the quarter ended September 30, 2017 reflected an expense of approximately \$3.5 million, principally related to a write-off during the third quarter of 2017 of certain inventory that the Company had acquired as part of its 2015 acquisition of Reggiani Macchine S.P.A. After conducting further review, the Company expects to report a material weakness in internal control over financial reporting related to this matter and that its disclosure controls were not effective in prior periods. The Company continues not to expect any negative impact to previously announced financial results for the quarter ended September 30, 2017, but the Company now expects that if there is a positive adjustment of the results for the period ended September 30, 2017 over previously disclosed results for that period there may be a negative impact to prior periods.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned, hereunto duly authorized.
